

Vacancy LinkedIn

General information

Company: CGI

Function/vacancy name: Young graduate – IT consultant

Location: Brussels

Job description

Intro

Do you have a vision on a truly digital world?

Do you want to know how emerging technologies influence business' potential?

Do you want to be the link between business and IT?

If so, then check out why you should join CGI's young graduate program!

Join a young, dynamic and digital team of twenty graduates.

Follow a six week training course and become the best version of yourself.

Develop your talents and learn how to be the best consultant.

Does this sound like you? Then keep reading, it becomes more interesting with every line 😊

Your dream job is all about ...

- Implementing IT solutions to create value for our customers
- Learning about and implementing emerging technologies, like in the areas of AI, RPA, Blockchain, ...
- Implementing, customizing, testing and maintaining of software
- Working at and/or for different customers
- Staying on top in your respective technology field
- Being challenged daily to find creative solutions for complex problems

You are ...

- Holding a Bachelor degree (Elektronics-ICT, Applied Informatics, ...) or a Master degree (ICT, Engineering, Electronic Engineering, ...)
- Genuinely interested in the digital revolution
- Driven to take the necessary steps to carry out your own career path
- Able to see 'the overall picture'
- Willing to switch contexts and clients as regularly as required
- Eager to take initiative and able to motivate others
- Able to work autonomously and seek own information
- Proactive, can-do and have a result oriented mind-set
- A clear communicator on a technical and business level
- Excellent in writing and speaking in Dutch and/or French & English

You have an interest in or some experience with ...

- Component Based Development and SOA
- JAVA and/or .NET and the main patterns and frameworks
- Web development and web applications
- BPMN and UML
- RUP, SCRUM, SAFe
- Platforms (e.g. SAP, Oracle, IBM, SharePoint, ...)

We offer you ...

- Our Young Potential program, with focus on technical, business & soft skills training
- The opportunity to gain valuable experience and to find the role that fits you best
- A training where you can put into practice what you have learned in a digital project (e.g. creating a chatbot, automating processes, ...)
- A stimulating environment where your ideas matter and can make the difference
- Challenging projects where you'll be able to show and evolve your skill set, depending on your own interests
- A safe work environment where everybody has respect for one another
- AWESOME colleagues !
- A competitive salary with some great extralegal advantages (such as a company car with fuel card and a lot of other benefits)

Expect to work on projects that matter, to deliver solutions for clients in Energy & Utilities, Financial Services, Health & Manufacturing or Government.

Company description

“An organization, no matter how well designed, is only as good as the people who live and work in it.”

At CGI you don't just become 'an employee', you become a member of our family. Our members are the most important asset of our organization. We value their contribution and everything they add to our company. Our dream is to create an environment in which we enjoy working together, building a company we can be proud of.

It is an extraordinary time to be in business. As digital transformation continues to accelerate, CGI is at the center of this change—supporting our clients' digital journeys and offering our professionals exciting career opportunities.

At CGI, our success comes from the talent and commitment of our professionals. As one team, we share the challenges and rewards that come from growing our company, which reinforces our culture of ownership. All of our professionals benefit from the value we collectively create.

Be part of building one of the largest independent technology and business services firms in the world.
