

Functional Analyst

What you will be doing to make an impact

As a Functional Analyst you will look into the efficiency and user-friendliness of applications. You will test and study the systems in place and **analyze their implementation, data and processes**. You will need to report on your findings and suggest improvements using new technologies. After updating the applications, you will have to support the programming and **give functional advice and training** to end users.

Skills you can WOW us with

You are a real **team player** with a passion for analysis who is at the same time extremely customer focused. Your best soft skill needs to be **communicating clearly** and listening attentively. **Process-based thinking** is in your blood and you get excited about everything tech. Your bright analytical mind can process large amounts of data, while you keep your cool and **creativity** to come up with innovative solutions.

We are looking for someone who worked hard for the following hard skills:

- Graduated or less than 3 years of work experience
- Master's degree in Business Engineering (Management Information Systems) or Informatics
- You are a native Dutch speaker

How you will become an Exellyst

We are not a recruitment agency. We are not a consultancy agency either.

We are tech talent integrators that will help you unlock your full potential. Once hired, you are part of our unique program that will most definitely match your professional needs.

- You are part of the Exellys team (we pay you, while your career takes off) but you are working on challenging projects for our clients.
- You get a personal career coach, access to technical trainings and are encouraged to obtain certificates so you can innovate yourself and boost your professional portfolio.
- After two years, you'll get the opportunity to work for the client as a permanent employee (they pay you, while your career is accelerated).

Sparked your interest? Want to know more about the job? About Exellys? About our remuneration package? You know what to do... hit that APPLY button and become an Exellyst!
