

Project engineer

What you will be doing to make an impact

As a Project Engineer you are always in contact with the project manager, technical experts and (internal) clients. You are collecting multidisciplinary technical data, are responsible for **analysing and documenting** them and either report to the PM or initiate **follow-up** yourself. You are also keeping an eye on standards and guidelines and are in charge of the budget within a project's scope.

Skills you can WOW us with

Your best soft skill needs to be **communicating clearly** and listening attentively. You want to increase your **knowledge** all the time by staying up-to-date with the latest technologies within your field of knowledge. You tackle deadlines like a rugby player and stress doesn't mean anything to you. You are able to **prioritise** your tasks and enjoy a job with a lot of variation, challenges and responsibility.

We are looking for someone who worked hard for the following skills:

- *Graduated or less than 3 years of work experience*
- *Master's degree in electrical, mechatronical or electromechanical engineering*
- *You are bilingual (Dutch/English), knowledge of French is a plus*

How you will become an Exellyst

We are not a recruitment agency. We are not a consultancy agency either.

We are tech talent integrators that will help you unlock your full potential. Once hired, you are part of our unique program that will most definitely match your professional needs.

- You are part of the Exellys team (we pay you, while your career takes off) but you are working on challenging projects for our clients.
- You get a personal career coach, access to technical trainings and are encouraged to obtain certificates so you can innovate yourself and boost your professional portfolio.
- After two years, you'll get the opportunity to work for the client as a permanent employee (they pay you, while your career is accelerated).

Sparked your interest? Want to know more about the job? About Exellys? About our remuneration package? You know what to do... hit that **APPLY** button and become an Exellyst!
