

## Software Engineer Java

### What you will be doing to make an impact

As a Java Software Engineer you will be **developing computer applications** to improve complex business processes. You will need to test and **evaluate the performance** of your and others' projects on functional and technical levels. You will be validating the test cases and proactively present **solutions for inefficient applications**. While improving and innovating, you still keep an eye on the technical design and guidelines.

### Skills you can WOW us with

You are a real **team player** with a passion for technology and applications who is at the same time extremely customer focused. Your best soft skill needs to be **communicating clearly** and listening attentively. You tackle deadlines like a rugby player, aim for gold in the quality of your work and although you are a human, and not a robot, you can guarantee that you **rarely make mistakes**.

We are looking for someone who worked hard for the following hard skills:

- Graduated or less than 3 years of work experience
- Master's degree in IT or Civil Engineering Computer Sciences
- Knowledge of Java SE, EE & ME (Android)
- Know-how of Spring, Hibernate, MVC, Oracle DB, etc. is a plus
- Experience with JAVA (through school projects or other)
- You are a native Dutch or French speaker and have a good knowledge of English, yes please!

### How you will become an Exellyst

We are not a recruitment agency. We are not a consultancy agency either.

We are tech talent integrators that will help you unlock your full potential. Once hired, you are part of our unique program that will most definitely match your professional needs.

- You are part of the Exellys team (we pay you, while your career takes off) but you are working on challenging projects for our clients.
- You get a personal career coach, access to technical trainings and are encouraged to obtain certificates so you can innovate yourself and boost your professional portfolio.
- After two years, you'll get the opportunity to work for the client as a permanent employee (they pay you, while your career is accelerated).
