

# [empowering] Solution DevOps Engineer

empower users to del

As a Solution DevOps Engineer, you will be responsible for setting up new solutions for our users as well as deploying and maintaining our widely used demo platform. You will be working closely together with our Product Marketing and Sales teams in a dynamic environment where a can-do attitude will take you a long, long way.

## A glimpse of.your [future]

Transparency is a key value here at Skyline. So let's forget about empty job titles or colorful descriptions for a moment and take a look at what you'd actually be doing here.

- [ ] You will **create sample apps** for our catalogue (approximately 60% of your time).
- [ ] You will **manage the deployment** of our **Ziine demo platform**, which hosts the sample apps, and ensure that its quality and availability are maintained.
- [ ] You will **coordinate the development and documentation** of said sample apps.
- [ ] You will frequently **engage with Product Marketing and customers** to gain a better understanding of business goals and manage your backlog effectively.
- [ ] You will actively **collaborate with industry-leading technology partners** to integrate their products and SaaS offerings into your solutions.
- [ ] You will **work closely with our Customer Success Team**, inspiring them to achieve success.
- [ ] Your apps will shine on the **biggest industry shows** globally!

## What skills.do you require?

No doubt you know your way around the tech industry. But let's dig a bit deeper into the various technical skills you'll need to get started as a Pre-Sales DevOps Engineer.

- [ ] You know your way around our **DataMiner platform and dataminer.services**, and keep yourself up to date on its latest features.
- [ ] You have a very good **knowledge of connector development and scripting (C#)**.
- [ ] You are skilled in **creating intuitive user interfaces** using DataMiner Dashboards, DataMiner Low-Code Apps and MS Visio.
- [ ] You can define and deploy **user-defined APIs**.
- [ ] You possess the knowledge to utilize the full potential of **CI/CD pipelines**, enabling others to leverage your work effectively.

## Your [competencies]

You'll be working in a highly technical environment prone to constant change and evolution. On top of that, you'll have to collaborate with a great many (marvelous) people. All very exciting! But it also calls for a special kind of mind- and skillset.

- You have a **bachelor's, master's or doctorate degree in ICT, Software and/or Telecom**. Agile certifications (Agile coach, Product Owner, Scrum Master) are a plus.
- You have a strong sense of **ownership and accountability**.
- You can **work independently** in a fast-paced, agile environment.
- You get your **kicks from collaborating** with other DataMiner users.
- Yet you are also a **team player** – after all, teamwork makes the dream work!
- You have a **positive can-do attitude** and are eager to **go the extra mile** every now and then.
- You are super excited to **learn and use all the ins and outs** of DataMiner.
- You have an **analytical mind** and pay great **attention to detail**.
- You have an **eye for graphic design** and usability as well as for technical architecture and development.
- English** will be your working language.

## What's in.it [for you]

### Well-being & health

Your healthy & happiness are our number one priority. From ergonomic office spaces to prime health insurance plans, we've got you covered.

### Money & benefits

We offer financial peace of mind through competitive compensation and benefits like a company car/bike, meal vouchers, a laptop, a mobile phone plan, etc.

### Flexibility & balance

You get the flexibility to work when & where you want. Or take time off when you need it. Because who knows you better than ... you?

### More than an office

Our Izegem-based office has it all: ergonomic offices, a gym and outdoor running track, a cool game room, a cozy break room, and a huge parking lot.

### Personal growth

Your future is really important to us. That's why we support your personal development with continuous training & growth opportunities.

### Close-knit community

We've got your back. You can always count on your fellow Skyliners for a helping hand, a good talk, and amazingly fun team events.
