We are
HIRING

Will you join
Our team ?

Java Developer

At Sweet Mustard, we're keen on working with young and passionate people. Since **innovation** is part of our DNA, you'll get the opportunity to **continuously improve** and evolve your skills as a **Java Developer**. And since we're all about **long-term co-creation** with our clients, you'll help develop **new concepts** and ideas from **scratch** to complete end products and maintenance.

As a Java Developer at Sweet Mustard, you'll get the opportunity to translate **user stories** into digestible **APIs**. You're proud of your **code** and are eager to share it with the world. You'll get the opportunity to learn new skills and share your knowledge with our colleagues. You'll get to deliver a carefully **crafted** and **tested backend**. As we work in a **constructive** environment, you'll get the chance to **review** code from your colleagues to provide them with **helpful feedback** so we can all **learn** from each other.

What you got vs. what we need

- You have a good knowledge of the **standard JDK** and follow its release cycles, so you can apply the **latest** and **greatest** features of the language.
- You know your way around **Spring Core, Spring Boot, Spring MVC, Spring Security,....**
- Knowledge of **JEE** is a plus.
- You can setup a **Java/Spring Boot** project from scratch. You know how to structure your project(s), making it easy to navigate for your colleagues and our customers.
- You're a master in development tools and the **Java** toolchain (Maven, Graddle, Git, Jenkins,...).
- You're able to **collaborate** with Developers and you have previous experience in working in an **Agile environment**.
- You can work in a constructive environment where you review code of your colleagues and provide them with helpful feedback.
- You have an **entrepreneurial, creative mindset** and like to take part in a growing talent community.
- It's good to have a Bachelor degree in ICT or similar, but the most important is your skillset, **ambition** and **drive**.

At Sweet Mustard, we'll compensate you for your skills, enthusiasm and your contributions to our team!

- **A competitive salary and compensation package:** an absolute must for IT professionals.
- **A chance to make an impact by working on challenging and innovative products and services:** with our other Sweeties by your side, you'll be both challenged and supported by our digital experts!
- **A team of passionate people and an inspiring talent community:** you're becoming part of not just any team, but a strong team of ambitious professionals aiming for innovation and continuous improvement. We're happy to share our knowledge with you and are delighted that you can share yours.
- **An optimal working atmosphere in a trendy office loft at the center of Kortrijk, away from traffic:** you'll come for the view, but stay for the awesome Sweet Mustard colleagues surrounding you at this amazing Kortrijk-based office. And don't forget the free 'sandwiches at the office' at lunchtime. With or without sweet mustard.

Now what are you waiting for? Come join us now and become part of our inspiring talent community here at Kortrijk!

Your Digital Future.
Together.
