

6 month Internship – Group Permanent Improvement Programmes

- Brussels, Belgium
- Full-time

Company Description

Eurofins Scientific is an international life sciences company, providing a unique range of analytical testing services to clients across multiple industries, to make life and our environment safer, healthier and more sustainable. From the food you eat, to the water you drink, to the medicines you rely on, Eurofins laboratories work with the biggest companies in the world to ensure the products they supply are safe, their ingredients are authentic, and labelling is accurate.

Eurofins is dedicated to delivering testing services that contribute to the health and safety of society and the planet, and to its corporate responsibility to protect the environment and ensure diversity, equity, and inclusion across the entire network of Eurofins companies.

Job Description

The **Permanent Improvement Programmes (PIP)** is the internal consulting team of the Eurofins Group, based in Brussels. The team's primary mission is to define, govern and implement programmes to **ensure harmonisation, standardisation and optimisation of Eurofins operations.**

Eurofins is currently looking for new talent to join their driven, highly skilled and diverse team of consultants. This is a very challenging and entrepreneurial position for a highly motivated candidate who is keen to get involved in the global strategy of a fast-growing company.

The Permanent Improvement Programmes are led by a diverse and international team working closely with upper management. This is a great position to get your foot in the door of a company where entrepreneurship is valued and internal movements are possible around the world.

You will be assigned to at least one project in the Permanent Improvement Programmes scope and support an Internal Consultant by independently running a number of specific activities, with a clear and limited scope. The PIP intern supports, or contributes to, projects aiming to deliver the key objectives of the Internal Consulting team:

- **Define and support alignment and standardisation of key concepts and processes at Eurofins**
- **Define and develop standard laboratories and processes for specific applications**
- **Develop methodologies and standards in performance and cost management**

INTERNSHIP DETAILS:

- Full-time compensated internship based in Brussels, Belgium
- The internship should last for 6 months, starting in January/February 2024
- Internship agreement with your university is **mandatory**

Qualifications

Education: Currently enrolled in a Master's degree in Science, Engineering or Business in a top university/business school with an excellent academic track record.

Languages: Excellent English oral and written skills are a must. French and/or German are a plus.

Personal skills: Strong problem-solver with "can-do" attitude, able to both pragmatically define solutions and capture and understand all relevant details when necessary.

Technical knowledge IT: MS Office products. SQL competences are a plus.

Additional Information

We support your development! Do you feel you don't match 100% of the requirements? Don't hesitate to apply anyway! Eurofins companies are committed to supporting your career development.

We embrace diversity! Eurofins network of companies believe in strength and innovation through diversity, being an Equal Opportunity Employer. We prohibit discrimination against employees or applications based on gender identity and/or expression, race, nationality, age, religion, sexual orientation, disability, and everything else that makes employees of Eurofins companies unique.

Sustainability matters to us! We are well on our way to achieving our objective of carbon neutrality by 2025, through a combination of emission reduction and compensation initiatives. We encourage our laboratory leaders to make sustainable changes at their local level, and in addition to their initiatives we also count on our dedicated carbon reduction team to help us to achieve this goal!

Company description: Eurofins Scientific is an international life sciences company, providing a unique range of analytical testing services to clients across multiple industries, to make life and our environment safer, healthier and more sustainable. From the food you eat, to the water you drink, to the medicines you rely on, Eurofins laboratories work with the biggest companies in the world to ensure the products they supply are safe, their ingredients are authentic and labelling is accurate.

The Eurofins network of companies is the global leader in food, environment, pharmaceutical and cosmetic product testing and in discovery pharmacology, forensics, advanced material sciences and agrosience contract research services. It is one of the market leaders in certain testing and laboratory services for genomics, discovery pharmacology, forensics, advanced material sciences and in the support of clinical studies, as well as having an emerging global presence in Contract Development and Manufacturing Organisations. It also has a rapidly developing presence in highly specialised and molecular clinical diagnostic testing and in-vitro diagnostic products.

In over 35 years, Eurofins has grown from one laboratory in Nantes, France to 61,000 staff across a decentralised and entrepreneurial network of ca. 900 laboratories in 61 countries. Eurofins companies offer a portfolio of over 200,000 analytical methods to evaluate the safety, identity, composition, authenticity, origin, traceability and purity of biological substances and products.

In 2022, Eurofins generated total revenues of EUR 6.7 billion, and has been among the best performing stocks in Europe over the past 20 years.
