

Junior Business Controller (V.I.E)

- Brussels, Belgium
- Full-time

Company Description

Eurofins Scientific is an international life sciences company, providing a unique range of analytical testing services to clients across multiple industries, to make life and our environment safer, healthier and more sustainable. From the food you eat, to the water you drink, to the medicines you rely on, Eurofins laboratories work with the biggest companies in the world to ensure the products they supply are safe, their ingredients are authentic, and labelling is accurate.

Eurofins is dedicated to delivering testing services that contribute to the health and safety of society and the planet, and to its corporate responsibility to protect the environment and ensure diversity, equity, and inclusion across the entire network of Eurofins companies.

Job Description

Are you our next Junior Business Controller?

Within the Business Controlling team, you will be responsible for monitoring and analysing financial data; supporting the annual budget cycle, including forecasts and mid-term planning; supporting the compliance cycle for budget deviations; conduct analysis of deviations between actuals and budget and support the team with ad-hoc projects.

Being part of the Eurofins Business Controlling Team will provide you with invaluable experience and exposure to kick-start your career. You will receive intensive coaching and training, with clear areas of responsibility. You will take on challenges as part of a multi-cultural and cross-regional team in an international and fast-growing organisation.

Duration: 1 year contract, renewable.

Starting date: July/ August/ September 2024

Qualifications

Education: Currently enrolled or recently graduated from a Master's degree in Economics, Finance or Accounting.

Personal skills: Proactivity, high energy, diligence; discretion when working with highly confidential information.

Languages: Fluent in English.

Technical knowledge IT: solid analytical and presentation skills.

Additional Information

We support your development! Do you feel you don't match 100% of the requirements? Don't hesitate to apply anyway! Eurofins companies are committed to supporting your career development.

We embrace diversity! Eurofins network of companies believe in strength and innovation through diversity, being an Equal Opportunity Employer. We prohibit discrimination against employees or applications based on gender identity and/or expression, race, nationality, age, religion, sexual orientation, disability, and everything else that makes employees of Eurofins companies unique.

Sustainability matters to us! We are well on our way to achieving our objective of carbon neutrality by 2025, through a combination of emission reduction and compensation initiatives. We encourage our laboratory leaders to make sustainable changes at their local level, and in addition to their initiatives we also count on our dedicated carbon reduction team to help us to achieve this goal!

Company description: Eurofins Scientific is an international life sciences company, providing a unique range of analytical testing services to clients across multiple industries, to make life and our environment safer, healthier and more sustainable. From the food you

eat, to the water you drink, to the medicines you rely on, Eurofins laboratories work with the biggest companies in the world to ensure the products they supply are safe, their ingredients are authentic and labelling is accurate.

The Eurofins network of companies is the global leader in food, environment, pharmaceutical and cosmetic product testing and in discovery pharmacology, forensics, advanced material sciences and agrosience contract research services. It is one of the market leaders in certain testing and laboratory services for genomics, discovery pharmacology, forensics, advanced material sciences and in the support of clinical studies, as well as having an emerging global presence in Contract Development and Manufacturing Organisations. It also has a rapidly developing presence in highly specialised and molecular clinical diagnostic testing and in-vitro diagnostic products.

In over 35 years, Eurofins has grown from one laboratory in Nantes, France to 61,000 staff across a decentralised and entrepreneurial network of ca. 900 laboratories in 61 countries. Eurofins companies offer a portfolio of over 200,000 analytical methods to evaluate the safety, identity, composition, authenticity, origin, traceability and purity of biological substances and products.

In 2022, Eurofins generated total revenues of EUR 6.7 billion, and has been among the best performing stocks in Europe over the past 20 years.
