

## Engineer Offshore (Antwerp)

Prepare for a dynamic role: You will be present in the office during the preparation phase and offshore during the operational phase.

### What do we offer you as an engineer Offshore?

In return for your hard work, we offer you a € salary based on experience.

- Cell phone (with subscription) + laptop
- Company car + fuel card
- We have sliding hours. You can start between 7am-9pm.
- We think you deserve two days of work from home.
- DKV- hospital insurance and group insurance.
- 20 vacation days - and 12 ADV days.
- Daily allowance of 9 euro +Nett allowance per month from 50 euro.
- MULTI.engineering launches MULTI Launch . 7-day training spread over a year. (connecting communication, leadership...)

### Fortunately, we can count on you for the following:

As a link between the project team and the crew on board our ships, you are responsible for optimizing the operational execution of the works.

- A true multitasker, you follow up on these activities on a daily basis and ensure that our ships deliver top performance.
- You are able to assist the project manager in securing contractual agreements and together with the captains you ensure flawless operational logistical support of our ships.
- Working with internal and external stakeholders, you will ensure that the right working methods, staff and equipment are available when needed.

### Do you have what it takes?

You are eager to learn more about marine and offshore engineering.

You would like to learn about budgeting, calculation and execution of offshore works.

During lunch breaks but also during technical meetings we see you speaking English fluently.

You have an impressive technical background, with a degree in Civil or Industrial Engineering. Your expertise is second to none!

Start your exciting career at MULTI.Engineering and **apply today!**
