Embedded Systems Traineeship

About the training

Nalys Group will organise a high potential traineeships for young engineers who want to kickstart their career in Embedded Systems.

The program consists of three main parts:

- 6 weeks of intensive hands-on training on different development languages (such as C, C++ & Linux)
- 4 weeks to complete a challenging graduation project in collaboration with our customers. It consists of a team project to develop functional software and demonstrate it on a hardware platform
- 6 months of coaching on a customer project. You will be supported by our Innovation department & advised by experienced mentors.

For further information regarding the program, visit the following website: http://www.graduate-embedded.com/

The training program will be held in Gent.

About you
- You have a Master degree in Computer science or related
- You are fluent in Dutch and English.
- You are passionate about Embedded software
